Early harvested to ensure a lighter fresher style of wine these estate grown grapes were harvested early in the cool of morning – to preserve the pure fruit flavour. The grapes were lightly crushed and then further cooled to 8° C before a gentle pressing in state of the art vacuum presses. Free run juice is separated from the heavier press fractions and decanted in stainless steel temperature controlled tanks for 48 to 72 hours, until perfectly clarified. The clear juice is transferred to stainless steel fermenters and inoculated with selected yeast to begin fermentation which took 3 weeks at 10°C. The wine is kept on fine lees until bottling. Twist off caps are used to maintain the freshness and the quality of the wine.

| Tasting Notes |

Light fresh and packed with citrus and green fruit notes, this is an easy drinking wine, low in alcohol but with maximum flavour. Notes of gooseberry, Williams pear, this is zingy and light but highly enjoyable and easy to drink. Serve well chilled at summer outdoor events.
